

X DECLARA

The JUJU x DECLARA collection, which conveys the power to bring joy to the darkness from the stars, the unique beauty of every aspect of us from the atoms, and the essence of living by not allowing the flow of emotions from the waves, includes 43 different product options. This limited-edition collection is available in JUJU and DECLARA stores as well as on online platforms.

The products where gold color and diamond-like sparkles meet, with touches of orange and white, reflect the energy and joy of the sea in the collection. The meeting of romantic pink and strong burgundy adds a bold touch to the accessories, waving the courage in a mature woman's femininity with the energy of a curious and innocent girl. The shades of blue remind us to stay in the flow to move forward and to be one with water. The JUJU x DECLARA collection, where the values of the two brands are best harmonized and the details are meticulously considered, appeals to productive and creative styles, emphasizing that our fundamental need to live joyfully is to be one with nature.
